

To Whom It May Concern:

This is a new idea that hasn't been done; it's a card collector's backpack. This backpack is designed with a binder attached inside of the bag that holds memorabilia cards. On the front of the bag is a pocket for autographs and two pins. This bag is also designed with a sturdy front and back to prevent any damage to the cards. This binder is also capable of holding over 1800 memorabilia cards, it also makes it easier for kids to carry to different events and functions without any damages.

Sincerely Yours
Michael Washington
